AVaRICE is a program

# Online Library Avr Dragon User Manual

which interfaces the GNU Debugger GDB with the AVR JTAG ICE available from Atmel. There are some third party clones of the (old, "mkl") Atmel jtagice available for purchase via the web for prices much less than the Atmel's offering. The AVR Dragon is a low-cost offering from Atmel, and is also supported.

# Online Library Avr Dragon User Manual

The AVR® Toolchain is a collection of tools/libraries used to create applications for AVR microcontrollers. This collection includes compiler, assembler, linker and Standard C and math libraries. Most of these tools are based on efforts from GNU ([www.gnu.org](http://www.gnu.org)), and some are developed by Microchip.
