British Guided Missile Destroyers County

The County class was a class of British guided missile destroyers, the first such warships built by the Royal Navy. Designed specifically around the Seaslug anti-aircraft missile system, the primary role of these ships was area air defence around the aircraft carrier task force in the nuclear-war environment. Eight ships were built and entered service. Two served in the British naval task force in the Falklands War in 1982. After leaving British service, four ships were sold to the Chilean Navy

County class Guided Missile Destroyer - Royal Navy

By the time final approval was given to complete them as interim anti-aircraft cruisers in November 1954, the hulls and machinery were out of date. The guided-missile equipped County-class destroyers were ordered

less than two years later, in 1956, and entered service only four years after HMS Tiger. The completion of the Tigers was political as was their later retention as anti-submarine helicopters carriers: they maintained a few more large ships and command positions, allowing the ...
