Best RC Rock Crawler (INT32) Enable RC stick override of auto and/or offboard modes . Comment: When RC stick override is enabled, moving the RC sticks more than COM_RC_STICK_OV from their center position immediately gives control back to the pilot by switching to Position mode. Note: Only has an effect on multicopters, and VTOLs in multicopter mode.

Remote control technology has improved a lot over the years. These days RC planes have a wide range and can last a long time. They can be a fun hobby and sometimes just something to do instead of being stuck inside all day, and it's worth noting most RC planes are significantly more affordable than a full-on drone. Here are the best RC planes.

If you drive your RC truck outside, thoroughly clean it every time you're done. RC trucks can rust, and they have plenty of nooks and crannies that can get dirty, too. To make sure your RC truck lasts as long as possible, make sure to wipe it off after each use. If you're new to RC trucks, buy one with a training mode.

RC Cam A "remote controlled" vehicle that is disguised as a pot. It is never used in the game, is rideable and can support two people. However, the name suggests that CJ drives the RC Cam when the player uses first-person view. It is possible that this was used in a mission for Zero, controlling the RC vehicle disguised as a plant.

Some RC trainers have very gentle stalls, and barely drop the nose after stalling, still flying straight ahead with wings level. Some years ago I started seeing "NACA droops" on some trainer wingtips, which supposedly make the stall even gentler (something to do with controlling abrupt changes in spanwise airflow over the wing near stall, apparently.)
