Radio Ni4L ANTENNAS ...

In case of the 10,20,40 meter End Fed, only the first 10,1 meter of the wire will work on 10 and 20 meter. The entire antenna is 12 meters long mechanically, but forms an electric length of 20 meters for the 40 meter band because of the coil. This means it creates a half wave length for the 40 meter band.
