Technical lettering is the process of forming letters, numerals, and other characters in technical drawing. It is used to describe, or provide detailed specifications for, an object. With the goals of legibility and uniformity, styles are standardized and lettering ability has little relationship to normal writing ability. Engineering drawings use a Gothic sans-serif script, formed by a series ...

Lettering Fonts. Hand-lettered is the style where you draw each letter individually, as opposed to writing them as in cursive or calligraphy. Hand lettering is an art form that takes practice and discipline, and can mimic calligraphy or other styles. When you start modifying the shapes of the letters, you are now illustrating hand-drawn lettering.
