Head Case : Interesting stories of what brain does. We feel with our heart and think with our head don't we? That is probably why people call the brain `controller' of the body. What defines us? Ego? Spirit that the creator gave to us? This book does not answer to this philosophical definition of oneself.

The hammer blows landed, one after the other, on the side of Byron Schofield's head. It was an August evening in 2010, a month after his 19th birthday, and he was walking through his home town ...

'The head injury that made me commit a crime' - BBC News

The book contains many interesting and sad cases of brain injury, told not by a doctor, but by a brain injury case manager and advocate. The writing is a bit meandering and the stories are very depressing, of course. The cases do show some of the weird workings of the human brain. ()
