Jack of Fables is a hell of a lot more fun than the original series, Fables, that he started in. In Volume 2: Jack of Hearts, after escaping from the Golden Boughs, Jack regales his fellow survivors with the story of how his affair with Lumi the Snow Queen led to him becoming the pesky Jack Frost. Jack later hightails it to Las Vegas where he gets married, comes into a fortune and, again, despite a meeting with Lady Luck herself, loses it all.

The Jack spin-off books tell his past and present story. Volume 2: Jack of Hearts collects two tales. In the first, Jack is hiding out in Idaho with John Henry, Pecos Bill, and Alice (of Wonderland fame), all of whom are on the run from Fabletown for one reason or another. To entertain his temporary friends, Jack tells the story of how he became Jack Frost and why he gave up that persona. This story is similar in style to the main Fables books, and I enjoyed it.

The devils did recapture Jack and they all agreed to put him in an empty planet alone to write down all his sins and repent. While locked away, Jack discovered that he actually had a tiny portion of reality-bending powers because of his half-literal nature, which he then uses to resurrect Gary and restore his powers.

Vol 4 is right smack-dab in the middle of a side-story involving Jack of the Tales. I won't spoil anything, but I'll definitely say I keep getting surprised in this comic. I've been trying to catch up in Jack of Fables, so I can read the Crossover volume of Fables. I started to read that volume of Fables, and was totally lost in the first page.

This volume really didn't appeal to me all that much. Yes, the story was good and an enjoyable read but as a whole it was not a satisfying read in the "Jack of Fables" series. First of all, because the real Jack, Jack Horner, was not in this volume at all. The whole volume was a side-story for Jack Frost alone.
