Sculpting tackles the things that modeling doesn't. It is ideally suited to creating organic shapes - characters, monsters, clothing, these sorts of things are best created with sculpting tools. Sculpting can also create fantastically detailed objects easily - a little too easily, if your computer isn't up to handling such complicated meshes!

## **Sculpting Timelapse - HEAD MODELING (tutorial) - YouTube**

Well done presentation of the modeling of the human figure in relief and in the round, covering clay casting, human anatomy, measurement and proportion, composition, and lots of good advice. I liked it well enough for a 110 year old book -- and I appreciate Dover's practice of reissuing such books -- but now I feel I need to read a more recent volume to solidify the concepts in my head.

## **Modelling and Sculpting the Human Figure by Edouard Lanteri**

As I study the human form, I find that this particular book, Modelling and Sculpting the Human Figure by Anton Lanteri, to be the most helpful. The written information is clear and well stated. The photographs give excellent visual references. The busts I sculpted using this book as reference:s.
