I've been teaching math at a community college for over 20 years, covering pre-algebra through Calculus II and everything in between. I also have a daughter in middle school, and whenever I have been able, I've worked on the grade-school level circuits with the teachers at her school.

Nicole Lang's Mathematical Circuit Training Teaching ...

I am a high school math teacher with 29+ years experience primarily with algebra one and calculus (but with all courses). I expect to teach at least 11 more years. I have also taught at the middle school and college level. I have been paying attention to the misconceptions students have for the past 28+ years.

Virge Cornelius' Mathematical Circuit Training Teaching ...

This grade 11 maths revision worksheet practices the two topics done in term 2 – functions and trigonometry. The questions ask to find x-intercepts, y-intercepts, asymptotes and turning points, as well drawing the graphs. There is a question on finding the general and specific solutions and one on proving identities.

Grade 11 Archives - Maths At Sharp

I ask students to use the Symbols poster and to draw the circuit I have just drawn and to add a component into the circuit that would indicate that the current is flowing through the circuit. The switch should be closed as well to complete the circuit. I check students' drawings and then introduce the concepts of series and parallel circuits.
