Improving Obstetric Triage - BCH Outreach

The Obstetrical Triage Acuity Scale (OTAS) has been designed to establish a national standard that allows departments providing obstetrical assessment to evaluate acuity level and set guidelines for timely care. All patients presenting to the obstetrical triage area are triaged and prioritized according to the OTAS tool.

OBSTETRICAL TRIAGE ACUITY SCALE (OTAS) Guideline HCS-207-01

Hospitals have incorporated triage principles into the practice of OB by either establishing stand-alone OB triage units or creating triage areas adjacent to the L&D department. 13 Qualified nursing personnel, including nurse-midwives, nurse practitioners, and clinical nurse specialists often staff these units. Typically, laboring patients who present to obstetric triage are assessed and transferred to the L&D department.
