This Peavey KB100 amp is by far the
most talented, all around amp I own,
and I own a lot of amps (lol). ... The
manual for this amp explains everything
in a lot of detail. While you could use
this amp without the manual, it's a good
idea to at least peruse it, there were
some suggestions and ideas in there
that I found useful.

User reviews: Peavey KB100 - Audiofanzine

Peavey's KB 100 amplifies signals from
keyboards and similar instruments.
Offering multiple input channels, it gives
professional musicians the ability to use
up to three keyboards at once while also
supporting external effects processors
and other sound modifiers.

A friend and coworker of mine is using a Peavey KB-100 keyboard amp as an amp/speaker for his kick drum. He's not "pro" or anything, just likes to jam with his buddies. The 15" driver has blown and he's looking for a replacement. The driver from Peavey has a list price of about \$150. This is WAY more than he's wanting to spend.

Peavey KB-100 amp/speaker. Different 15" driver options?

The Peavey XR 1200D has the same power amplification circuitry as the larger XR 1600D. When a single amplifier is used as a mono amplifier, it is capable of producing 300 watts using a 4-ohm speaker system. Using an 8-ohm speaker system, the amplifier can produce up to 150 watts per channel.
