Reform-Why We Need It and ...

The distribution of tax burdens is always a subject of heated debate. From these debates, two fundamental principles have emerged on how to distribute the burden of a tax: the benefits principle, and the ability-to-pay-principle. The benefits principle suggests that people should pay taxes based on the benefits

taxes are seen as serving a function similar to that of prices in private transactions; that is, they help determine what activities the government will undertake and who will pay for them. If this principle could be implemented, the allocation of resources through the public sector would respond directly to consumer wishes.
